

Lateef - Announcement

Changes

This release includes the addition of two characters. No other changes were made to the font.

New

- Added:
 - FDFA ARABIC LIGATURE SALLALLAHOU ALAYHE WASALLAM
 - FDFB ARABIC LIGATURE JALLAJALALOUHOU

Known issues

- Shaping for the newly added characters may not yet occur in applications.
- Medial and final high hamza characters may have collisions (these likely do not occur).
- Lam + high hamza alef ligature does not form as it likely does not occur.
- In Word: kerning of Arabic proportional digits is incorrect. This is a bug in Word.
- In InDesign: some behaviors, such as the *lam-alef* ligature, raised *kasra* with *shadda*, and subtending marks, will not function correctly unless **Ligatures** is turned on in the **Characters** panel.
