Lateef - Documentation

Thank you for your interest in the Lateef font. Lateef includes near-complete support for Unicode 13.0 Arabic ranges (excluding the Arabic Presentation Forms blocks, which are not recommended for normal use).

This documentation is a set of HTML pages that can be viewed in any modern web browser. PDF versions of these pages are also provided. This content, plus download links and a contact form, are available from the Lateef site.

- About Information about this project and SIL International
- Resources Help with installation and use
- FAQ Common questions and answers
- Design History and background of the design
- Character set support Details of Unicode characters that are supported
- Type Sample Type sample demonstrating all the characters in this font
- Font features Using smart font features
